

§ 794.121 Exclusion of excise taxes.

The computation of the annual gross volume of sales of the enterprise for purposes of section 7(b)(3) is made "exclusive of excise taxes." It will be noted that the excise taxes excludable under section 7(b)(3) are not, like those referred to in section 3(s)(1) and section 13(a)(2), limited to those "at the retail level which are separately stated." Under section 7(b)(3), therefore, all excise taxes which are included in the sales price may be excluded in computing the annual gross volume of the enterprise.

§ 794.122 Ascertainment of "annual" gross sales volume.

The annual gross volume of sales of an enterprise engaged in the wholesale or bulk distribution of petroleum products consists of its gross dollar volume of sales during a 12-month period. Where a computation of annual gross volume of sales is necessary to determine the status of the enterprise under section 7(b)(3) of the Act, it must be based on the most recent prior experience which it is practicable to use.

§ 794.123 Method of computing annual volume of sales.

(a) Where the enterprise, during the portion of its current income tax year up to the end of the current payroll period, has already had a gross volume of sales in excess of the amount specified in the statute, it is plain that its annual gross volume of sales currently is in excess of the statutory amount.

(b) Where the enterprise has not yet in such current year exceeded the statutory amount in its gross volume of sales, but has had, in the most recently ended year used by it for income tax purposes, a gross volume of sales in excess of the amount specified in the Act, the enterprise will be deemed to have an annual gross volume of sales in excess of such statutory amount, unless use of the method set forth in paragraph (c) of this section establishes a gross annual volume less than the statutory amount.

(c) When it is necessary to make a computation of the annual gross volume of sales of the enterprise the following method shall be used: At the beginning of each calendar quarter (Jan.

1-Mar. 31; Apr. 1-June 30; July 1-Sept. 30; Oct. 1-Dec. 31), the gross receipts from all of its sales during the annual period (12 calendar months) which immediately precedes the current calendar quarter, is totaled. In this manner the employer, by calculating the sales of his enterprise, will know whether or not the dollar volume tests have been met for the purpose of complying with the law in the workweeks ending in the current calendar quarter.

§ 794.124 Computations on a fiscal year basis.

Some enterprises operate on a fiscal year, consisting of an annual period different from the calendar year, for income tax or sales or other accounting purposes. Such enterprises in applying the method of computation in § 794.123(c) may use the four quarters of the fiscal period instead of the four quarters of the calendar year. Once adopted, the same basis must be used in subsequent calculations.

§ 794.125 Grace period of 1 month for compliance.

Where it is not practicable to compute the annual gross volume of sales under § 794.123 or § 794.124 in time to determine obligations under the Act for the current quarter, an enterprise may use a 1-month grace period. If this 1-month grace period is used, the computations made under those sections will determine its obligations under the Act for the 3-month period commencing 1 month after the end of the preceding calendar or fiscal quarter. Once adopted the same basis must be used for each successive 3-month period.

§ 794.126 Computations for a new business.

When a new business is commenced the employer will necessarily be unable for a time to determine its annual dollar volume on the basis of a full 12-month period as described in §§ 794.123 and 794.124. In many cases, it is readily apparent that the enterprise will or will not have the requisite annual dollar volume specified in the Act. For example, the new business may be so large that it is clear from the outset that the business will exceed the \$1
